This is to keep you informed of our plans concerning the forthcoming research project in San Diego as we discussed several weeks ago in your office.

We are planning to have the personnel and equipment on site on or about 22 June and will remain for 7 to 10 days.

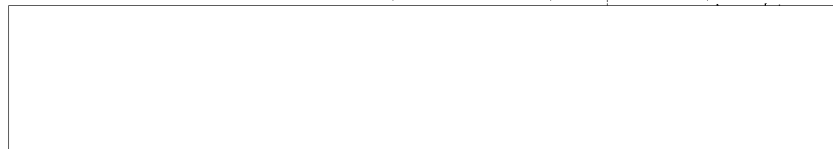

25X1

Since our last meeting one other contractor group will be in the area for 3 to 4 days working on an allied project over the same test sites. This is the [redacted]

25X1

25X1

Following is a list of [redacted] personnel names and their clearances:

25X1

25X1

I believe you already have through ONI the names and clearances of the personnel from [redacted] and four of us from the Agency. One more Agency member will also be in the area during the project. He is [redacted] CIA/DDS&T, (TOP SECRET).

25X1

25X1

It appears that we will not have ground stations on [redacted] NAS for this project; however, we do plan to use two military sites on the Naval Station in South Bay area. Both the [redacted] aircraft (B-25) and the [redacted] aircraft (Cessna 320) will operate out of Lindbergh Field and will not require any military logistics support. We would like to enlist your aid, however, for liaison between the contractor personnel and the Navy base for permission to set up two monitoring stations on the base.

[Redacted]

The five other target sites are non-military. They are: (1) Lindbergh Field, (2) Santa Fe Freight Yards, (3) 10th Avenue Marine Terminal, (4) Pacific Transfer Truck Terminal, and (5) Luther Towers Construction Project. Our central cover office is sending a letter to the manager of each of these five facilities. A copy of one of these letters is attached for your information. As you will see this letter identifies this project as an Air Force research contract. The letterhead address at [Redacted] is for cover purposes but that organization does exist for "backstop" purposes.
